

## REGISTRATION IN NORTH CAROLINA

The Trial of Registrar J. T. Thompson Before U. S. Commissioner.

DENIED HE REFUSED VOTERS.

Three White Men and Three Negroes Make a Registrar Put Their Names on Books With a Pistol to His Head.

WINSTON-SALEM, N. C., July 12.—Special.—Today was devoted to examination and cross examination of the defendant in suit against Registrar J. T. Thompson. He testified that he had not refused registration to any man who established his right to vote and would not do so.

DEMANDED BOOK.

The prosecution today demanded the registration book. Counsel for defendant objected, claiming a United States court had no right to impound the books of a State officer and that the law prescribed the time and place when the books should be opened to all electors. Commissioner Beckett ordered the production of the book. After counsel for prosecution had examined the book and asked some questions, he requested the commissioner to make formal order refusing book to registrar, which was done. The case will hardly be concluded before Saturday.

AT PISTOLS POINT. James E. Steel, of Montgomery, was here today and said a few days ago three negroes and three white men entered the office of a registrar in the county, and holding pistols at his head forced him, with threats of killing, to register them. The case was done, but immediately upon their disappearance their names were erased from the books. Officers have been unable to find the negroes and white men.

TORRACO FIRE. Five here today destroyed a large tobacco box factory owned by J. E. Shelton, and a tobacco factory formerly owned by N. S. and T. J. Wilson. Mr. Shelton's loss is eight thousand dollars, with no insurance. The fire started in his engine room by coals of fire falling on some shavings. Messrs. Wilson's loss is five thousand dollars with \$1,000 insurance. Their boiler and engine were saved.

## TERRIBLE VEIL ENSHROUDS PEKIN

(Continued from First Page.)

ment this morning via Siberia. It bore no signature, but Secretary Long believes it came from Rear-Admiral Kempff. The facts set out in the cablegram appear to accord with those described in a little different form in previous advices from Shanghai.

The text of the message is as follows:

"Nagasaki, Secretary of Navy, Washington, China, July 12.—Runner Pekin reports German troops burnt Tientsin. Yamet. Chinese moved many field guns on wall commanding legations. Chinese subjects advised to leave legations. Runner heard heavy firing in Pekin after leaving city."

ON TO PEKIN.

The Government Determined Not to Relax Its Efforts.

WASHINGTON, July 12.—"On to Pekin" is the policy adopted by the Government. It is said that regardless of the issues raised as to the authenticity of the late Chinese riot, or the accuracy of its statement of facts, or the question raised as to the responsibility for the present situation, our Government is determined not to relax its efforts to reach Pekin, to get in touch with Mr. Conger, if he is alive; to take the necessary steps for the protection of Americans; and in fact to do all these things set out by Secretary Hay's note to the Powers, including a reckoning with the person or persons responsible for the outrageous events of the past six weeks.

Twenty-four hours' consideration of the Chinese note leaves the officials here convinced that it marks the beginning of a general effort on the part of Chinese officials to relieve themselves from responsibility for the treatment of the foreign ministers and the fighting at Tien Tsin.

The news from Tien Tsin of the unsatisfactory relations between the allied forces goes to confirm the War Department officials here in their original convictions that two or three brigades of American troops, veterans in Indian wars, Cuban campaign and Philippine jungle hunts, could have accomplished tangible results by this time, had they been at Tien Tsin. Col. Leavenworth's orders are broadly framed, and it is said at the War Department that while he retains command of his own men under all circumstances, he may co-operate to any extent with the allied forces.

Plans to Feed the Army.

WASHINGTON, July 12.—The plans of the War Department for feeding the army in China are being gradually formulated. It has been decided that all troops destined for Nagasaki, with a probability of service in China, shall carry sixty days' rations, which will be landed with them. Transportation for this amount of stores will be furnished at once, so that the American contingent will be able to make a prompt move forward, should it become necessary to act in semi-independence of the allied forces.

Manila will be utilized as a base for all supplies, and the Commissary Department has enough material there to meet

DESIRE NO PARTISAN.

Germany Believes in Maintenance of Agreement of Powers.

BERLIN, July 12.—It is semi-officially stated that Count von Buelow, the Secretary of State for Foreign Affairs, has addressed a circular to the German Legations in the various ports, after reviewing certain events in China, he says:

"The latest development in the military situation is the piercing by the Chinese of the Imperial Canal, near Tien Tsin, for the purpose of facilitating the advance on Pekin from the south, while great masses of hostile Chinese are pressing on from the north and east."

"Our military measures, consisting of eight battalions of infantry, three squadrons of cavalry and four batteries, will enable us to participate in the military action in a manner corresponding with Germany's political importance. We desire no partition of China and seek no special advantages."

"The Imperial government is imbued with the conviction that the maintenance of the agreement between the powers is a condition for the restoration of peace and order in China."

More Conjecture.

WASHINGTON, July 12.—The Japanese legation has received a dispatch from Tokyo giving details of the German expedition of Baron von Ketteler at Pekin and the fighting around Tien Tsin.

It states that the German minister was killed by a shot, and it is not known whether the shot was fired by the Chinese or by the Japanese.

Concerning today's report from Yokohama that the government is being urged to send 50,000 troops to China, the Japanese charge says this is little more than press conjecture, and that there is no present evidence that the government has the slightest intention of sending more than one army corps, or 20,000 men, to China.

It is the understanding of the Japanese officials here that the Fifth Army Corps is now being put aboard transport at one of the great naval stations near Hiroshima. The Japanese troops will go straight to Taku, the trip taking about three and one-half days.

Will Send Fifty Thousand Troops.

YOKOHAMA, July 12.—Though no decision has yet been announced, it is certain that Japan will send nearly 50,000 troops to China. The press agrees that the dispatch of so large a force is a duty in the interests of humanity, but asserts that the Japanese government is hesitating between the troubles resists upon Russia and Germany, because of their arbitrary action in China.

Russians Marching on Pekin.

SHANGHAI, July 12.—It is reported that a Chinese merchant here has received a letter from Pekin, dated June 29th, saying the legations were demolished and that the foreigners had been killed.

It is announced from a good source that 20,000 Russians are marching on Pekin from the north.

Telegraphic Communication Stopped.

NEW YORK, July 12.—The Commercial Cable Company sends out the following notice:

"We are advised that the Great Northern Telegraph Company has received notification from Shanghai that telegraphic communication with Chefoo has been interrupted since yesterday evening."

Li Hung Will Stay in Canton.

LONDON, July 12.—The Canton correspondent of the Daily Telegraph, wiring July 11th, says:

"Li Hung Chang has decided to remain here, and the American gunboat which was waiting to convey him on route to Pekin will sail tomorrow."

Artillery Duel.

(Copyright 1900, by The Associated Press.) CHEFOO, Sunday, July 8.—An artillery duel is proceeding at Tien Tsin. The Chinese guns are so masked that the allies find difficulty in locating them.

A PERSIAN NOBLEMAN.

Lost His Life in Heroic Effort to Save His Companion.

CHARLOTTE, N. C., July 12.—Special.—David Yonan, a Persian, and Fred Hobbs, both medical students at Davidson College, were drowned this afternoon in the Catwawa River near Davidson.

The tragedy occurred at a picnic given by the Presbyterian Church and was witnessed by many people. Dr. Henry Louis Smith, President of the College, and several others plunged in the water in a vain effort to save the drowning men.

Yonan was the son of a Persian nobleman and was graduated at Davidson this year. After a four-year medical course he was returning to Persia as a medical missionary. He lost his life in a heroic, desperate effort to save Hobbs.

## BUSINESS MEN OF MANCHESTER

The Action of the Water Commission Condemned.

COUNCIL MEETING TO-NIGHT.

The Deaths of Two Children—Mrs. Virginia Snellings Very Ill—Rev. Kent Pendleton Improving—News Personal and Brief.

Manchester Bureau Richmond Times, 112 Hull Street, Beattie Block.

The Business Men's Association met in a heated session last night in the Association Hall. The meeting was called to hear the reports of committees, but the principal issue before the body, and which caused a flow of criticism and denunciation, was the introduction of the following resolution, addressed to the City Council, condemning the recent action of the Water Commission:

"Whereas, we have learned of the recent action of the Water Commissioners in electing to the office of Superintendent of Water Works and Inspector of Plumbing a gentleman reported to be unskilled in such matters; and whereas, we have no preference as to who should occupy the said position, yet we believe that the health of the citizens of this city and the very nature of the positions aforesaid require a skilled and experienced officer; therefore, be it

"Resolved, That if said officer be unskilled we disapprove of the action of said Water Commissioners and respectfully request that this matter and the principle involved be carefully looked into and considered by your honorable body."

After much argument the above resolution was unanimously adopted. Messrs. Evans, Royall and Beattie—appointed to accompany the document before the body and to explain its importance. Mr. Evans was the first to address the meeting in favor of the adoption of the resolution. In the main he repeated the speech made a week ago, when the matter was first taken up by the association. He termed the action of the Water Commission "an outrage and a disgrace that deserved condemnation," and declared if the Council ratified such action that body should be considered unworthy to hold office.

Mr. Evans then turned to the Water Commission and declared that the Council had no right to dictate to the commission, which statement Mr. Royall held could not be true, saying: "If the water works don't belong to the city they ought to." Lord knows she paid for them. He continued his argument, stating that the supreme law-making and governing body of the city should certainly have the right to approve or disapprove of the action of the commission.

After the adoption of the above resolution, reports of other committees were heard.

Mr. Pulliam, chairman of the Street-Car Committee, read a letter which he had prepared to be sent to the president of the Richmond Passenger and Power Company, calling attention to the improvement needed in the street-car service in the city, and also requesting that the company operate the line down Hull Street, out Seventh and over the Free Bridge to Richmond. The letter was approved by the association and the secretary was instructed to forward it to the company.

TOOTH-BRUSH AND BATH TUB.

These Principal Articles Needed by Negroes.

SAVANNAH, GA., July 12.—Booker T. Washington, and two large meetings of negroes today. He said two of the principal articles needed by the negroes are a tooth-brush and a bath tub.

When a negro gets to where he will take a bath daily and will clean his teeth each day with a good brush he will have advanced a long way toward the standard set by the white man.

In his school at Tuskegee, the speaker said, he sees to it that every student has a tooth-brush and that he uses it to advantage.

He believes that the greatest evil with which the negroes have to contend now are the flocking of the negroes from the country to the city.

Speaking of immorality, he said the negroes must draw the line between the right and the wrong themselves. The
